

Greetings! May the Scent of the Oil s Bring You a New Worl d

November, 2004

Dear Friends,

I hope 2004 has been a good year for you. I am sending this newsletter to anyone who is interested in building their business. If there is any way I can help, please contact me at (269) 673-4849, or email me at: mhardy@allegan.net. I feel that *Young Living* has the best products available in any MLM program. This newsletter talks about using *Young Living* products to defend yourselves against flu epidemics and bacterial and chemical warfare.

Right now, news anchors are discussing the threat of a flu epidemic because of the limited supply of flu vaccine. Also, due to the war in Iraq, there is a possibility of chemical and/or bacterial warfare being launched against America. We have a wonderful marketing opportunity to help people understand how to protect themselves against this diabolical situation. Not only can we help take people out of fear, but we can help them financially purchase the products they need to protect themselves by helping them build their downlines.

By using the power of the oils, we can reestablish the proper spin within the blood so that we can become the Christed beings that God intended. We as distributors must understand this knowledge. Aromatherapy is the only way to reestablish the proper frequency within the blood.

Mid-November, my husband Dean had another stroke, which forced me to put him in the hospital and nursing home. My next newsletter will address this issue. Drugs block the system and by blocking the system, they reduce the ability of the soul to develop. All anyone has to do is to enter a nursing home to see this happening. Because of the spirituality of the oils, *Young Living* products develop the soul and help mankind advance into higher consciousness.

October's Convention in Nashville introduced the new **Art and Science of Skin Care, a superior concept in skin restoration. *Young Living's* A.R.T., (Age Refining Technology) combines DNA recovery enzymes - an advanced technology - with a proprietary Anti-Aging Peptide Complex to reduce the look of fine lines and wrinkles, diminish age spots, even-out skin tone, and increase the elasticity and density of your skin.** Test subjects for this new product have been accused of having face lifts! This product was tested on nine women before the convention. Before and after pictures were shown, proving the benefits of this product. ***This new product has the potential to take your business to unlimited success.***

Young Living has been dedicated to increasing the longevity of life. Gary Young has created the ***Longevity Kit***, #3139, \$187, to nourish the life-force within the human body. Folk wisdom from every culture describes the "essence" called life. Prana, Chi, the life force, all of these names describe the element that invigorates and brings vitality. Every tradition indicates steps that can be taken to nourish and build one's life essence, as well as those things that deplete and destroy it. *Young Living* has created the *Longevity Kit* for those who wish to build their life-force energy to optimal strength.

IMPORTANT: If any of you are interested in receiving your downline reports, send me a self addressed envelope and I will mail it to you. I have Vicki's program, so I can send you address labels for mailings, etc.

Essential Oils - First Line of Defense Against the Flu & Other Bacterial & Chemical Warfare

By Rev. Mary Hardy, Ph.D

Since September 11, 2001, our world has changed. We are now seriously facing the real threat of chemical and bacterial warfare. Our media is currently reporting that we have a severe shortage of flu vaccine, and encouraging every one to rush out and get their shot before it's gone. They quote from past years where flu epidemics have wiped out thousands of people. The public is reacting with fear.

Let us look at this threat. There are many strains of flu, and the vaccine is only immunizing against one or two strains, so vaccines offer limited protection. To help you determine on your own whether the flu shot is for you, consider the ingredients: Aluminum, Antibiotics, Egg protein (in vaccines prepared using chick embryos), Formaldehyde, Monosodium glutamate (MSG), 2-phenoxy-ethanol, Thimerosal (mercury - the second most toxic element on the periodic table), Ethylene Glycol (also known as anti-freeze-a deadly poison), other additives include: suspending fluid (sterile water, saline, or fluids containing protein), preservatives and stabilizers (albumin, phenols, and glycine) and adjuvants, just to name a few!

After reading the above list, my gut tells me that these shots would compromise the immune system instead of protecting it. Is this part of the warfare that is being launched against us?

Moses knew that Essential Oils create an aromatic barrier that can protect us from the devastating effects of this warfare. He mixed *hyssop* and *cistus* oils in the lamb's blood painted around the windows and doors to protect against the disease that was killing the first born.

Gary Young has developed an oil named *Thieves* that will protect us against this warfare. *Thieves* was created based on research about four thieves in France who protected themselves with cloves, rosemary and other aromatics while robbing plague victims. This proprietary blend was tested at Weber State University, Ogden, Utah, and found to have a 99.96 percent effective rate against airborne bacteria.

Young Living delivers the benefits of the *Thieves* blend in a variety of products: *Thieves* Cleaning products: *Thieves Household Cleaner*, *Thieves Spray*, and *Thieves Wipes*; For personal care we have *Thieves Lozenges*, *Thieves bar soap* and *Thieves Essential oil*.

Thieves offers a safe line of defense against the flu and other chemical and biological bacteria.

The other diseases that are being reported are smallpox and anthrax. Gary Young has developed *Exodus II*, an oil blend that is very similar to the oils that Moses used. Along with *Thieves*, this is one of the first oils that I recommend that you purchase to protect yourselves from these threats. Other oils for these particular threats are *Thyme* oil to guard against Anthrax and *Melissa* to help stop small pox.

RC, (respiratory and cough) has been used for many years to stop the epidemic of daily toxic poisonings like formaldehyde and arsenic. A drop of *RC* can be put right in the base of the nose to protect you from these attacks. Another way of protecting yourselves is to buy a paper gas mask, and place a drop of oil on the mask.

Other Oils and blends that I would use: *Exodus II*, for general microtoxins, *Thyme* for anthrax, *Melissa* for smallpox, *ImmuPower* for staph and strep, *Christmas Spirit* for staph and strep, *Melrose* for fungus, *Lemon* to clean surfaces of bacteria and activate the white blood cells, *Thieves* for bacteria, and *Purification* to clean surfaces and disinfect any puncture wounds such as bug bites, etc. Nile Virus is carried by mosquitoes. If you feel that you have been infected from a bug bite, immediately put *Purification* on the area. Many of these oils, like *thyme* and *lemon*, can be ingested.

Young Living has put many of these oils into simple kits. The first kit I would buy would be the **Essential Seven Kit**. It contains *lavender*, for skin irritation and burns, *lemon* oil as a disinfectant and to activate the white blood cells against germs, and *peppermint* to help in digestion. All of these oils will digest the monotoxins in the

system. That is why the oils really are the first line of defense. Also, in the *Essential Seven Kit* there are two other oils which work on the emotions. *Peace and Calming*, which helps quiet the nerves, and *Joy*, which helps fill your electromagnetic field with love. Remember, laughter and happiness is a shield against disease. Fear and anger will program the receptor sites on the cells to receive the monotoxins. The *Essential Seven Kit* also has *Pan Away*. This blend helps strengthen the bones and calms pain. *Purification* is a must. As stated before, any puncture wound should be immediately flushed with *Purification*. It will immediately stop the invasion of monotoxins into the wound. It will also help clear the air of formaldehyde and other monotoxins.

The next kit that should be purchased is the **Seventh Heaven Kit**. It contains the essential oils blends of *Awaken*, *Dream Catcher*, *Gathering*, *Humility*, *Inspiration*, *Sacred Mountain*, and *White Angelica*. We desperately need to bring our spirits up. These oil blends contain *Frankincense*, *Myrrh*, *sandalwood*, and many other healing oils mentioned in the Bible.

Another kit that should be purchased is the **Cleansing Trio**. Most disease starts in the bowel. In fact, Herbologists like John Christopher say that 90% of disease stems from a dirty bowel. *Young Living* puts *Essential Oils* in many of its herbal products. The *Cleansing Trio* is designed to keep the bowel healthy. It contains *ComforTone*, which is a mild laxative with other ingredients to go after parasites; *Essentialzyme*, which will help digest the monotoxins and parasites, and *ICP*, which is a gelatin-like material which flushes the bowel.

The **Rejuvenate Kit** cleanses the liver. This kit contains *Juva Powder*, which binds up the acid in the liver, *ComforTone*, which is a mild laxative, and *Detoxzyme* which detoxifies the liver. This kit also contains the *Rejuvenate* booklet, and audio tapes or CD that outlines a liver cleansing program.

Young Living has recently come out with new enzymes. We now have individual enzymes to work on different areas. Enzymes are responsible for the body's chemical reactions. Without sufficient enzymes, the chemical reactions will be incomplete. Incomplete reactions lead to an accumulation of unused molecules in the body which can become toxic if not eliminated.

Allerzyme aids those with allergies in four different ways: It breaks down the allergies before the immune system can respond, digests foods so that only small, fully absorbable particles are absorbed, promotes the healthy intestinal flora to improve immune function, and serves as a replacement for the body's enzymes allowing internal enzymes to perform other duties. (The body has 2 types of enzymes. Food enzymes to digest food, and metabolic enzymes to enhance immune function. If there are not enough digestive enzymes in the system, the body will rob enzymes from the metabolic enzymes which keeps our immune system allergy free and healthy.)

Detoxzyme helps to break down the protein and toxic material that is in the system.

Polyzyme is a combination of all the natural enzymes such as papaya, and pineapple.

We also have 4 digestive aids:

Lipozyme is scientifically formulated to aid fat digestion.

Carbozyme is scientifically formulated to aid carbohydrate digestion including starchy foods, such as breads and pastas.

Fiberzyme is scientifically formulated to aid fiber digestion.

One of the most important enzymes is **Sulphurzyme** because it contains MSM. MSM is an organic form of sulphur which activates body functions.

Probably the most important kit is the **Longevity Kit**. It introduces *Berry Young Juice*. *Berry Young Juice* contains wolfberry polysaccharide, shown to be one of the strongest supporters of immune function. In fact, many *Young Living* products contain Wolfberry. The kit also contains *Ultra Young* which helps stimulate human growth hormone (HGH), *Longevity oil*, which was designed for germ warfare, *VitaGreen*, which helps the body balance pH, *Detoxzyme*, which keeps the body free from monotoxins, and *Power Meal*, which is a complete protein drink to feed the tissues.

Young Living has a complete line of personal hygiene products for men, women and children, such as soap, shampoo, toothpaste, mouthwash, lotions, etc. that are free of the monotoxins found in most commercial products.

Young Living has the first line of defense against bacterial and chemical warfare.
